Topic: Super Late Model Clutches and Bleeders. Bleeder and/or pop-off valve devices are permitted. 4.5 inch or larger clutch allowed.

The following rules have been updated in the 2013 Slinger Speedway Rule Book as reflected below.

Wheels

Approved wheels must be 15-inch diameter; five-lug (5) steel; 5" x 5" hub or wide 5 patterns; 10-inch rim width. **Bleeder and/or pop-off valve devices are permitted**; alteration or defacing of wheel identification numbers; labels; code numbers or serial numbers is not permitted. Wheel(s) failing this criteria will be ineligible for competition. A minimum weight of 17lbs is required

Clutch

1. **4.5 inch or larger clutch allowed**. Max price MSRP. \$1600
2. Absolutely no carbon fiber or poly clutches allowed.
3. Bell housing must have a minimum 2 1/2" hole at bottom (to allow a clear view of clutch).
4. Only standard material clutches allowed. No Slipper or Centrifugal clutches allowed
